AMENDMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

This is responsive to the Office Action dated April 28, 2005. Please reconsider the application in view of the amendments and remarks presented herein.

Claims 14-16 and 30-32 are rejected under 35 U.S.C. § 103(a) as being unpatentable over patent document U.S. 2003/0064381 (" '381'").¹ The Office alleges that the '381 reference suggests that a regimen for the treatment of HIV may include the combination of zidovudine/AZT and viramune and zidovudine/lamivudine. The Office further alleges that Hermelin discloses using the blister pack for containing multiple different medicaments for providing a complex dosing regimen. The Office further indicates that to have provided any dosage amounts for these substances would have been further obvious as discovering a specific workable range or value for the substances.

Applicants respectfully traverse each and every aspect of this rejection. For the reasons stated herein, Hermelin does not lead a person of ordinary skill in the art to the features now recited in these claims. The '381 reference does not address the shortcomings of Hermelin in that it is primarily directed to novel polynucleotides encoding HGPRBMY26 polypeptides, fragments and homologues thereof. Accordingly, Claims 14-16 and 30-32 are not obvious. A withdrawal of this rejection is therefore respectfully solicited.

The points of the Office Action being addressed in full, a Notice of Allowability is respectfully solicited.

Respectfully submitted,

Date: July 11, 2005

Robert J. Smith

¹ Given the comments in connection with this rejection, presumably Hermelin was intended to be cited as the primary reference.
